

01 / THE CONCEPT · IN ONE LINE

WE DO THE QUOTING. THEY STAY ON THE TOOLS.

QuoteMax is the AI receptionist for Australian tradies. A customer texts their number, the AI asks the right questions, applies their pricing book, and drafts a single fixed-price quote in under a minute. The tradie just reviews, tweaks, and sends.

02 / THE OFFER

FOUNDING 10, ON THE HOUSE.

FREE TO ONBOARD. WE ONLY WIN WHEN YOU WIN.

- ✓ **Free onboarding** for the first 10 tradies in each trade — no setup fee, no subscription to start.
- ✓ A flat **2% on converted jobs** is the whole deal — our share kicks in only when a quote turns into paid work.

03 / WHERE IT RUNS

FIVE TRADES. ONE PLATFORM.

Built for the trades that quote the same jobs every week. Electrical and plumbing lead in NSW and QLD, with air con, painting and roofing now piloting too — all on the one platform.

04 / THE SELL

HOW WE WIN A TRADIE.

A short, honest funnel. We connect, we show the product working, we make the founding offer, and we hand them a link or a QR code to start.

01 CONNECT

We cold-call or get introduced to a tradie. The opener is simple: “What if every customer who texted you got a priced quote back in under a minute, without you stopping the job?”

02 DEMONSTRATE

We show QuoteMax working on a live SMS thread — customer message in, single fixed-price quote out. This one-pager is the leave-behind that explains the whole concept at a glance.

03 MAKE THE FOUNDING OFFER

We invite the first 10 in their trade to onboard free, with the flat 2% on converted jobs. Low risk to them, aligned incentive for us — our share only grows when their work does.

04 HAND OVER THE LINK OR QR

They scan a QR code or tap a sign-up link and drop straight into the onboarding wizard — alongside us, or on their own. No app to install, no paperwork.

THE THREE-MINUTE WIZARD.

Four screens take a tradie from sign-up to a live quoting line. The catalogue is the make-or-break step, so we make it effortless — pick from a pre-built library for their trade, not a blank page.

1

BUSINESS & PREFERENCES

Name, ABN, licence, service area and brand voice — what dresses every quote so it goes out looking like their business, not ours.

3

SET THE RATES

Hourly rate, call-out minimum, markup. Every quote prices itself off their numbers — the AI never invents a price.

2

BUILD THE CATALOGUE

Start from a ready-made assembly library for their trade and just toggle what they offer. No spreadsheets, no blank page.

THE CRITICAL STEP

4

GO LIVE WITH THE NUMBER

A dedicated Australian number to hand out — on the van, the website, the card. The moment it's live, the AI is answering.

THEN IT RUNS ITSELF.

Once the number is live, every incoming enquiry turns into a priced quote and a paid deposit — while the tradie stays on the tools.

01 • INTAKE

CUSTOMER MAKES CONTACT

They text or call the tradie's QuoteMax number. The AI answers instantly, every time — no missed jobs while they're up a ladder.

02 • DRAFT

AI BUILDS THE QUOTE

It asks the right questions for the job type, applies the tradie's pricing book, and writes one clear fixed-price quote in under a minute.

03 · ROUTE

CLEAN OR COMPLEX

Straightforward jobs auto-quote. Anything tricky books a fixed \$99 site visit instead – refundable, credited toward the final quote.

04 · REVIEW

TRADIE CHECKS IT

The quote lands in their dashboard. Approve as-is or tweak a line. Their pricing, their final call – always.

05 · PAY

DEPOSIT SECURED

The customer pays a deposit via Stripe straight from the quote page. The job is booked before anyone picks up a tool.

06 · CONVERT

JOB WON

The tradie got the work without quoting at 11pm. When it converts, our share is a flat 2% – that's the whole deal.

🔄 AND IT **REPEATS** – EVERY ENQUIRY, EVERY DAY, WHILE THE TRADIE STAYS ON THE TOOLS.

YOUR TURN

ALL FIVE TRADES ARE LIVE. FOUNDING SPOTS ARE OPEN.

Each tradie gets their own number, pricing book, and AI receptionist tuned to their brand voice. Setup takes about three minutes.
